

# Fizza Zeeshan

I am a person with a strong interest in software development, particularly web development. I've always been intrigued by software innovation and design. Working creatively to solve complex problems and learning how people interact with designed systems and services is a lot of fun. I've done some group projects at university and an internship, and I loved being on a journey with amazing people, creating new things by pushing the boundaries.

## EDUCATION

### Bachelor in Software Development Kristianstad univeristy

08/2020 - Present

Kristianstad, Sweden

### Swedish Language SFI

02/2020 - 08/2020

## WORK EXPERIENCE

### Development Intern REVAM AB

05/2021 - 11/2021

Malmö, Skåne

#### Tasks

- I worked as an intern at REVAM AB, a startup that helps online sellers increase their efficiency and reduce sourcing times. I worked on enhancing the website's design by working on the frontend side. My work was incorporated into their production.

Contact : Peter Olsson - <https://revam.tech/>

### Ikea Student Day IKEA

03/2022 - 03/2022

Älmhult

#### Tasks

- I took part in IKEA's Student Day to help create the IKEA Family customer club of the future. I suggested that they work more on their website's accessibility and promote their products digitally to bring value to the company and reach a younger audience.

### Freelacning Upwork

2020 - Present

#### Tasks

- 1) I created a webpage with HTML and CSS. 2) I had to answer some questions using excel data, which I extracted using python scripts and pandas from a .csv file. 3) Create mySQL queries to output data.

### Founder and Manager MiniTreats

2020 - Present

Gothenburg

#### Tasks

- I am a co-founder and manager of MiniTreats, a home-based baking business.
